If you think someone is being harmed, or is harming you...

SPEAK UP!

Acting against Harm is everyone’s responsibility

Most adults in Fife who are disabled, ill or elderly, live comfortable, safe and secure lives – either living independently, or with support from relatives, friends, neighbours, professionals or volunteers. However, some people might find it more difficult to stop harm happening to them.

There’s now a new law to protect and support adults at risk of harm. It is called The Adult Support and Protection (Scotland) Act 2007.

This leaflet tells you more about the different kinds of harm, and what to do if you, or someone you know is being harmed.

DON’T assume that someone else will report harm. They may not and the harm may continue.

Are you concerned about someone who may be at risk of harm or who is being neglected?

STOP HARM
SPEAK UP!
What is harm?
There are many different forms of harm. These include:

- **Physical harm** – such as slapping, punching, biting, hitting, shaking and kicking.
- **Psychological harm** – being humiliated, intimidated, shouted at, threatened, bullied or constantly criticised.
- **Financial harm** – feeling under pressure to hand over money or possessions. Exploitation of property or welfare benefits or stopping someone getting their money or possessions. Stealing, cheating or fraud. Being under pressure to re-write a Will.
- **Neglect** – being denied food or heating, medication, privacy, dignity or personal care.
- **Sexual harm** – any sexual activity that a person doesn’t feel comfortable with, want or understand.
- **Discrimination** – ignoring religious beliefs, making comments or jokes about a person’s disability, race or sexuality, not providing the right food.
- **Institutional harm** – repeated instances of poor care, rigid routines to suit staff, lack of respect.
- **Self-harm / Self-Neglect** – when you don’t look after yourself or harm yourself.

Who causes harm?
Anyone can cause harm. They could be someone the person knows, such as a partner or other relative, a friend or neighbour, paid staff, carers or volunteers, or another adult at risk.

Where can harm happen?
Harm can take place anywhere - in the person’s own home, in a residential or nursing home, a hospital, day centre, at work or in a public place.

What will happen if I report harm?
Fife Council Social Work, NHS Fife and Fife Constabulary are working in partnership to keep people safe from harm. We have a duty to inquire and investigate cases where harm is known or suspected.

Staff will work closely with the adult at risk to decide together what action is best. If appropriate, the family of the adult at risk will also be involved in the decision making.

Who can I tell?
If you are worried because you or someone you know is being harmed or suffering from neglect, call this number: 01383 602200
