

Human Trafficking Awareness E-Learning Programme (SW4933)

Open to all agencies with workforce groupings/individuals who require an awareness of:

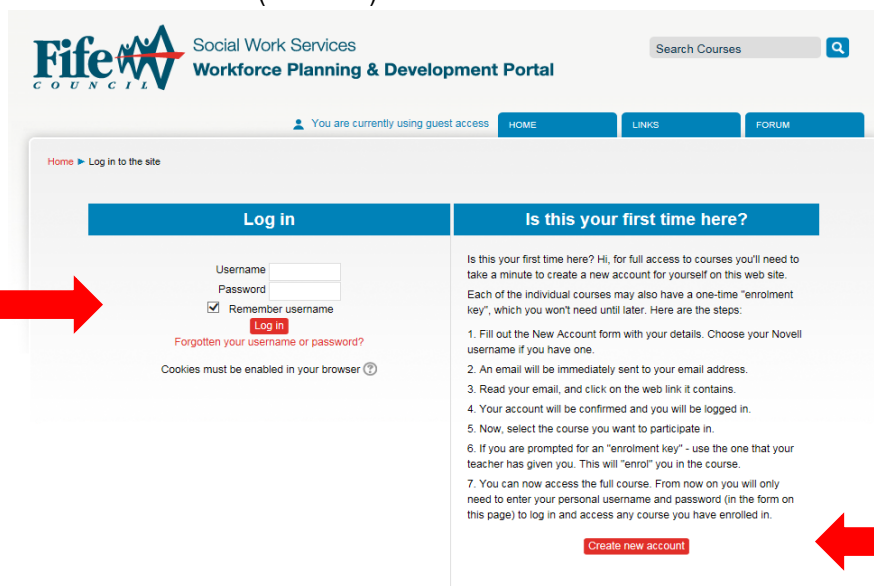

- The issues that lead to children and/or adults becoming involved in human trafficking, and
- Some of the mechanisms in place to support children and/or adults affected by human trafficking.

For those with a Fife Council or Police Scotland email address

- Type in <http://socialwork.fife.gov.uk> and this will take you straight to the portal.
- A number of blue/yellow boxes will now come up on the screen. Human trafficking is in the 'multi-agency' box on bottom row.

- You will be prompted to log-in to access the programme. If you have previously logged on to the Portal you will use the same details as before. If you have not previously logged on, you will be asked to create a new account (as below).

On completion you will be able to provide feedback and then download a certificate of achievement.
